NATIONAL INVENTORY OF NATURAL HERITAGE

ALL OF NATURE IN ONE CLICK!

INPN, A WEBSITE TO LEARN EVERYTHING ABOUT BIODIVERSITY!

AN INFORMATION SYSTEM FOR ALL

The INPN manages and shares online information about land and marine natural heritage in mainland and overseas France. There you can find species, natural areas, ecosystems, geology, archeozoology, etc.

This information was put together in collaboration with environmental experts and professionals.

Natural area managers, political decision-makers and informed amateurs can all use the INPN as a source of information and tools for their activities about nature.

FOR EXPERTS AND PROFESSIONALS IN NATURE MATTERS

National registers on taxonomy (TAXREF), habitats and geographic reference layers (GIS).

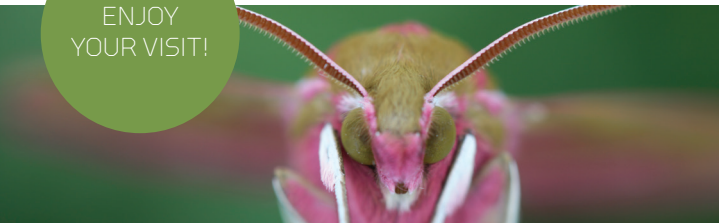

Structured reference list: protection status, Red lists, etc.

Descriptions and methodology of national programs: ZNIEFF, Natura 2000, Red lists, etc.

Input tools: i-natura, i-znieff, CardObs, Carnat, etc.

Everything is available via downloads and web services.

ENJOY
YOUR VISIT!

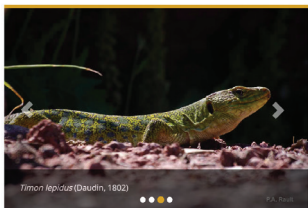

AN INFORMATION SHEET ABOUT ALL THE SPECIES

Timon lepidus (Daudin, 1802)

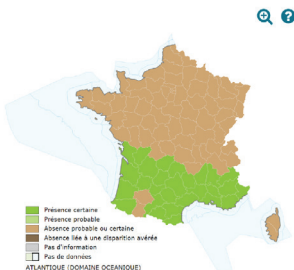

Lézard ocellé (Français)

(Chordata, Reptilia, Squamata)
